	1:00 – 2:00 PM	2:15 – 3:15 PM	3:30 – 4:30 PM
Seminar Room 1	<p><u>The Client, The Contractor and You: A Love Triangle</u> AIA LU: 1 HSW</p> <p>There is no need for your client to sing the blues when they could sing your praises! Help avoid costly mistakes and frustrated clients by understanding the tile installation process for natural stone, ceramic, glass and porcelain. Get the information you need on material coordination and logistics, so you can ensure your clients' safety and deliver projects on schedule and within budget. Leave with a better understanding of potential pitfalls inherent in the kitchen, bath or other projects and learn to adopt designs and methods that minimize risk.</p> <p><i>Presenter: Joshua Levinson, President, Artistic Tile</i> <i>Sponsor: Artistic Tile @ 212-727-9331 or laurasteele@artistictile.com</i></p>	<p><u>Marble Institute of America's Introduction to Natural Stone</u> AIA LU: 1 HSW</p> <p>This in-depth course provides an introduction to the different types of natural stone as well as common quarrying, fabrication, and finishing methods. You will learn how to properly identify and categorize stones according to their formation in nature. Explore how antiquated techniques and architecture provide the fundamental standards for modern day processes.</p> <p><i>Presenter: Joshua Levinson, President, Artistic Tile</i> <i>Sponsor: Artistic Tile @ 212-727-9331 or laurasteele@artistictile.com</i></p>	<p><u>Exploring Flooring Options with Polymer Concrete</u> AIA LU: 1 CEU</p> <p>This seminar covers different seamless flooring options available with polymer modified concrete. It explains the suitability, advantages and disadvantages of very low VOC acrylic, epoxy and polyurethane modified concrete and how they can contribute to LEED points. The seminar attendees will learn typical stages in installation along with various coloring and design possibilities in polymer concrete. Color and design possibilities are elucidated by case studies of residential, commercial and industrial projects.</p> <p><i>Presenter: Victor Pachadé, phone: 646-875-8690 or email: victor@duraamen.com</i> <i>Sponsor: Duraamen Engineered Products, Inc. www.duraamen.com</i></p>
Seminar Room 2	<p><u>Brick Masonry Rain Screen Walls</u> AIA LU: 1 HSW</p> <p>Sophisticated wall system that deals with moisture intrusion better than other types of wall systems. This talk covers the basics of rain screen walls and when they are used. Details of the system including the all important air barrier are included. Other recommendations on vent spacing and compartmentation are given.</p> <p><i>Presenter: Wendy Talarico</i> <i>Sponsor: Brick Industry Association @ 703-674-1535 or mseid@bia.org</i></p>	<p><u>Green Building Design with Concrete Masonry Units</u> AIA LU: 1 HSW/SD</p> <p>Presentation about how concrete masonry can contribute to LEED points: review of LEED 3.0, present the integral part of thermal mass and its play in energy performance, review available products.</p> <p><i>Presenter: Stewart Goodman</i> <i>Sponsor: Anchor Concrete Products @ 732-292-2674 or stewart.goodman@oldcastleapg.com</i></p>	<p><u>Windows: An Environmental Perspective</u> AIA LU: 1 SD</p> <p>The seminar describes the USGBC and the LEED rating system. Discover how windows contribute to LEED certification in the categories of Energy and Atmosphere, Materials and Resources, and Indoor Environmental Quality. Also learn the environmental impacts of specifying different window frame materials.</p> <p><i>Presenter: Ellen Harmon</i> <i>Sponsor: Pella Windows & Doors @ 973-575-0120 x9279 or msansevere@luxhome.com</i></p>
Seminar Room 3	<p><i>All Seminars are FREE to AIA Members and their guests. All rooms seat a maximum capacity of 50-70 people**.</i></p> <p><i>** All AIA Members who plan to attend seminars are required to RSVP to the Exhibitors due to space limitations.</i></p>	<p><u>Evaluating Exterior Doors for Performance and Sustainability</u> AIA LU: 1 HSW</p> <p>The seminar examines the importance of careful evaluation and selection of exterior entrance products in light of the goals of sustainability and construction of high-performance buildings. Functional requirements for exterior doors and the performance characteristics and material properties necessary to ensure long life, low maintenance, and minimal life cycle environmental impact are reviewed.</p> <p><i>Presenter: Joseph Boltzer</i> <i>Sponsor: La Porte Associates @ 866-541-0958 or jboltzer@laporteassoc.com</i></p>	<p><u>Green Building Envelope Design</u> AIA LU: 1 HSW</p> <p>The seminar provides an overview of green building envelope design and the importance of whole building sustainability.</p> <p><i>Presenter: Harold Decker</i> <i>Sponsor: Parksite @ 609-320-8013 or bmurphy@parksite.com</i></p>
